

# Client Researcher Reports

The following is only a small sampling of EVENSTAR [PMOS] result reports submitted by our client researchers. The data presented does not represent objective clinical data; is provided for educational purposes only; and is not intended to imply medical claims in any way shape or form. (Some client researchers wishing to keep their identities private have chosen to use pseudonyms).

Evenstar [PMOS] are research instruments only and must be used in accordance with all local and national guidelines for these types of devices. If you are in poor health, seek appropriate professional medical care immediately. DO NOT attempt self-diagnosis and treatment.

## **CANDIDA**

Diana Leonard, San Francisco, CA

Age: 50 something.

I was suffering drastically for almost a year, I had extreme hot flashes and intense physical, mental, and emotional anxiety, and it was getting worse and worse, as if my hormonal balance and adrenal glands were going crazy. The various infections and symptoms due to Candida were not clearing up, and were tormenting me. As soon as I began using the Evenstar-6000, the Candida began to die off. Also, the hot flashes and anxiety immediately began to diminish, and after two weeks, they are now almost 100% gone. I feel like a new person. The peacefulness and feeling of well-being that seemed to be lost forever are now becoming my normal state. My suffering had seemed hopeless and endless, and now is finally coming to an end! It was a horrible experience, and I am grateful and happy that it is over, and so much healing is happening now.

Darrell Thompson, North Bend, WA

Age: 69

When I began using the [PMOS] system I had a cancer tumor in my stomach. I had undergone radiation and chemo several months before and it looked like the tumor had stopped growing. I used the [PMOS] for seven months and there was no change in the size of the tumor. Three months after I stopped using the [PMOS] I had a series of tests done that now show the tumor is nearly completely gone. I did not do any other therapies between the time I stopped using the [PMOS] and my tests in early December 2003. My doctor said, "Whatever you're doing keep it up." I believe the chemo and radiation delayed my healing process and had it not been for chemo and radiation the tumor would have been gone three or four months sooner. Also, I had warts on my hands for several years that completely went away after two weeks of using the Evenstar. I'm astonished at the overall results I've gotten.

## **CANCER: PROSTATE, BONES, LEGS, BACK, SHOULDERS AND ARMS**

*(Excerpted from the 'Charging Up Your Body for Health' article written for Rejuvenation Destinations Magazine) July of 2003,*

Bill Gonzales, 66, of Northern California, was diagnosed with Prostate Cancer that had spread to his bones, legs, back, shoulders and arms.

His PSA was taken three times over the course of one month. The first PSA was at 1,200, the second at 3,668 and the third at 5,205. He has copies of each doctor's report to corroborate this.

"After being told by the doctors that this was an aggressive moving Cancer with extensive infiltrating tumors in all cores of my prostate, I purchased an Evenstar-6000 [PMOS].

I explained to the doctors that I did not want chemotherapy or radiation. I was informed by the doctors that I had no choice but to go to chemotherapy if whatever I was doing did not work. For about two months I experienced pain throughout my body, a loss of appetite (even the foods I liked the most), which resulted in a drop of 30 pounds, and also suffered from insomnia. After one month of using the for five minutes three times per day I started feeling better, my appetite came back and I started sleeping without waking up during the night.

On November 19, 2003 my PSA was 0.56 and the doctor said 'this is a miracle and one for the medical record books'. I've gained about seven pounds since and have not taken any pain pills in over a month. My next PSA test is scheduled for January 27, 2004. I am so thankful for the Evenstar-6000 [PMOS]; I believe it saved my life."

#### **PROSTATE CANCER - PSA at 8.7**

Valentino DeLeon. San Jose, CA

Age: 50 +

My last test PSA test came back at 8.7. At 4 they want to castrate you, or subject you to chemo and/or radiation. I wasn't having any of that. My good friend Bill had purchased an Evenstar-6000 [PMOS] and watched his PSA go from 5,205 down to 0.01. I used Bill's [PMOS] for two weeks and my PSA dropped to 0.046.

#### **AIDS: Clinical Study Report**

*(Excerpted from the 'Charging Up Your Body for Health' article written for Rejuvenation Destinations Magazine)*

When asked about the [PMOS]'s effectiveness with AIDS, Mr. Scott Anderson of Caladan Scientific, told us, "In 1996, a clinical study was conducted over a ten week period by Joseph Carozza, M.D., at the New York Health & Healing Center in conjunction with the Seattle IRB, using the BELS (Bioelectric Light Stimulator) unit; our second generation prototype. Several HIV+ patients participated, and the study concluded: The BELS unit worked very well on the non-HIV+ patients. With the HIV+ patients, none of the normal intercurrent illnesses, general fatigue and ongoing weight loss that were expected occurred...all of the medical problems that were present at the outset of the study were either resolved or significantly improved." Anderson also added, "Based on over 12 years of experience with this technology, we believe these patients would have continued to experience strong improvements had they continued using this technology beyond the ten week pilot study."

#### **STROKE PARALYSIS**

*(Excerpted from the 'Charging Up Your Body for Health' article written for Rejuvenation Destinations Magazine)*

Ten years ago, Jim Chapman was dealing with a minor circulatory issue that was misdiagnosed by doctors as a blocked aortic valve. While undergoing his second needless surgery, he died three times and suffered five strokes, resulting in a substantial loss of eyesight, memory and large and small motor functions.

"Prior to the surgery Jim was a strong vibrant intelligent man with 20/20 vision," his wife Evelyn said. "After the second surgery Jim had to relearn everything: walking, eating, talking, writing... everything!

Although he didn't regain motor skills in his fingers and wrists, he experienced gradual improvement in his eye sight and arms and legs so that he could walk a little bit. His arms felt like they had heavy weights attached them though. Often when he tried to run, he would fall to the ground as if the extra weight in his arms was pulling him down."

Since that tragic day ten years ago on the operating table, life has certainly been challenging for the Chapmans; yet they never lost faith or gave up hope for a miracle. Evelyn says, "For ten years we've been praying for a miracle and five weeks ago our prayers were finally answered when my brother purchased a Evenstar-6000 [PMOS].

"We were skeptical at first, but when you have faith you have to keep an open mind. After the first session Jim was very quiet and I just assumed nothing happened for him. The next day he startled me by demanding that I take him back for a second session on the Evenstar [PMOS]. I asked him, 'What's going on?' He said, 'The heaviness in my arms...it's nearly gone!'"

Evelyn said, "Jim has always loved fishing. Just this past week he was able to go fishing again, and for the first time in ten years he was able to fly fish, tie his own knots...I'm so deeply, deeply grateful to God for this gift...it's hard to believe, but Jim continues to improve...the results he's getting are truly astounding."

## **MIGRAINE HEADACHES, KNEE AND LEG ACHES AND PAINS, HEARTBURN, SKIN IRRITATION.**

Darlene Eason Eastern Washington  
Age: 70 Issue:

My first time using the machine was June 9, 2003. I was hoping it would help the pain in my knees and aching legs and migraine headaches. We started out with one-minute treatments and worked up to five minutes. After a week the headaches got worse for two nights and then the headaches stopped. I have not had one since. The treatment has not helped my knees and legs much yet. I have had very little heartburn though, since using the machine, which I did not even think about the treatments helping. Also, I had an itchy place on the top of my head and it is practically gone.

## **INDIGESTION**

Brian Edwards, Oakland, CA.  
Age: 43

When I hit 39 I began experiencing minor indigestion and heartburn when eating pasta, pizza, hot Mexican food, etc. Three weeks after I began using the Evenstar-6000 [PMOS] twice daily my wife made pasta putenesca for the first time in over a year. When I ate the dinner I just expected to have to take digestive enzymes around 10 PM. At around midnight, when I was getting ready for bed, I suddenly realized that I wasn't experiencing indigestion. I can now eat anything without ill

effect. I can eat the hottest peppers without any issues or after burn the next morning --- even in my 20s when I could eat anything, I experienced after burn the following morning.

### **LOWER BACK**

Tim Saslof, San Francisco, CA  
Age: 52

Over the past few years I've spent more time at my desk and almost no time working out. Before I started using the Evenstar-6000 [PMOS] twelve months ago, I was suffering from lower back pain. After two five minute sessions with the [PMOS] the pain was gone. I subsequently purchased one for myself and use it almost twice every day. I have had no lower back or any other muscular skeletal pain either. Overall, I feel incredible - like I remember feeling in my early to mid-30s (I don't remember my 20s much, I was having too good a time).

### **NECK & SHOULDER PAIN**

Andrea Benson, Tempe, AR  
Age: 54

I've been experiencing chronic neck and shoulder pain for about two years. I think it's because I spend a lot of time sitting at my desk in front of a computer. Chiropractic helped, but didn't last. After three four minute sessions with the [PMOS]-12000 the pain was gone. I use my [PMOS] system every day and feel better than I ever have before.

### **KNEES**

Scott Allen, West Seattle, WA  
Age: 45

About 18 months before I started using the Evenstar-6000 [PMOS] I began experiencing chronic pain in my left knee. I think the pain came from a combination of athletic abuse and clutching in my car. About six months before using the [PMOS] I began experiencing chronic pain in my right knee from athletic abuse. After two five minute sessions on the [PMOS] the pain was completely gone. Now, I'm not saying that I believe the knees were healed, but the pain was gone. I've been using my Evenstar [PMOS] for well over a year and have been pain free ever since. I do believe that now my knees are healed. Also, I haven't been sick once since using the [PMOS]. I've been around sick people and others around me have gotten their colds and flus, but I haven't had even a sniffle.

### **EYESIGHT**

Linda Keyser, Seattle, WA  
Age: 51

After using the Evenstar-6000 [PMOS] for two months, I noticed the vision in my right eye was off and went to my eye doctor to have him check out my contacts. He checked my eyes and was surprised to find that my astigmatism had corrected

itself. He told me he had never heard of that happening before and that only way to correct it is with laser eye surgery.

## **EYE FLOATERS**

Anita Kulp, Bellevue, WA

Age: 44

For several years I had several irritating eye floaters that went away after three or four sessions with the Evenstar-6000 [PMOS]...thanks for one less irritation in my life.

## **COLDS AND FLU'S**

Andrew Kirk, Palos Verdes, CA

Age 38

Before using the Evenstar-6000 [PMOS] I used to get a cold or two each year and maybe a flu. I've been using the Evenstar-6000 [PMOS] for nearly two years now and I haven't been sick once. I've been around people with serious colds and flus – I've even passed flus on to others – and I haven't had a sniffle. (After zapping myself, I found I was no longer contagious.)

## **DIABETES**

Jim Lear, San Diego, CA

Age: 63

Before using the Evenstar [PMOS] my fasting blood sugar level was at 350 after one week of using the [PMOS]-12000 system every day, it is now down to 140. Simply amazing!

Alfonso Castanada, San Juan Batista

Age: 59

I've been dealing with diabetes for over ten years. My fasting blood sugar level is normally over 200. Three weeks ago my health practitioner introduced me to the Evenstar-6000 [PMOS]. My blood sugar levels began dropping almost immediately down to 120, 114, 80, and even as low as 69 — I've never experienced that before. To say the least, I'm extremely excited about the results I continue to see.

## **DENTAL**

Scott Adams, Portland, OR

Age: 42

I have a tooth on left side of my mouth that needs a crown. When I began using the Evenstar-6000 [PMOS] a year ago, I was experiencing minor discomfort in that tooth and was favoring the right side of my mouth. After four sessions with the Evenstar-6000 [PMOS], the pain completely disappeared. I continue to use my PMO everyday and am able to chew on the left side of my mouth without any uncomfortable sensations.

## **LYME PARKINSONS**

Dr. Charles Wray, Santa Barbara, CA  
Age: 60

In December of 2002 I invested in [PMOS] technology. The first week I began using the technology I had a patient in his mid-50s who was suffering from advanced Parkinson's disease. He couldn't write, had difficulty sleeping through the night, stuttered when talking, when he tried to walk unassisted he would go into a stumbling run...it was a very heartbreaking situation. After three days using [PMOS] technology, he was able to sleep through the night. After ten days of treatment I estimate he was 75% improved. His ability to speak, walk, write, etc., was dramatically improved. It is clear to me that this technology has profound power to heal the body.

## **WRIST PAIN**

Joan Boucher. Redmond, WA  
Age: 57

I was suffering from pain in my wrists from what I believe was from repetitive strain from working on my computer and playing golf. After three sessions, the pain was completely gone. I continue to use the technology.

## **BACK PAIN FROM AUTO ACCIDENT**

Marcy Potts, Atlanta, GA  
Age: 56

I was in a car accident seven nine years ago and have been dealing with chronic lower back pain ever since. I've tried everything from acupuncture, chiropractic, you name it...pain pills reduced the pain, but it was always there. My fear about constantly taking pain meds is that the damage they do to my body and mind and wanted to find a way to stop the pain and get off them. I learned about the Evenstar [PMOS] and spent two weeks doing two sessions per day and experienced a 90% decrease in pain and increase in mobility. I've been using my own Evenstar [PMOS] for seven months and the pain is completely gone. It's an incredible technology.

## **GENERAL ACHES AND PAINS SHOULDERS**

Tim Lyons, Issaquah, WA  
Age: 43

Suffering from bursitis in my right and left shoulder aggravated from sleeping on a very expensive bad mattress. After three sessions on the Evenstar-12000 [PMOS] all the pain went away and it hasn't come back in well over a year.

## **RETURNED MY VIBE MACHINE FOR AN EVENSTAR [PMOS]**

Colleen Rodger, San Francisco, CA  
Age: 53

I purchased a VIBE machine in February 2003 and after using it for six weeks I learned about the Evenstar-6000 [PMOS]. I checked it out and was extremely impressed with the technology and what I consider its cost to value ratio to be for me. I returned my VIBE for an 85% refund... Yeah, I know... (The Rife Store provides a 100% 60-day unconditional money back guarantee) and kicked myself in the butt for not doing more research earlier. I could not be happier with my Evenstar [PMOS]. I find it to be superior in every way.

### **BIOELECTRIC LIGHT STIMULATOR (“BELS”) UNIT REPORTS**

The BELS unit was our second generation prototype BELS unit and was superseded by Evenstar [PMOS] Technology in 1995.

The following is a sampling of result reports submitted by BELS users in 1995 and 1996.

-

#### **Issue: Poor Health due to Drug and Alcohol Abuse and Bad Diet**

Barbara S.  
Age: 54  
May 14, 1996

I have been using the BELS machine since July 1995. I have had a condition of general ill health through years of drug and alcohol abuse and general unhealthy diet and activities.

I have tried many different natural treatments of acupuncture, foot zone therapy, shiatsu, massage, Rife machine, colonics, chiropractic and herbal treatments with no long-term dramatic effects. My energy level was low; I was quite fatigued. General tiredness has been a problem over the years.

With the BELS machine [along with nutritional supplements and exercise] I have had greater energy and well being. I started with 5 minutes every day and progressed to 10 minutes a day. I have missed days occasionally, but usually I use it every day. My treatments are usually in the morning as I find the energy I get will keep me awake at night.

The foot zone therapy I have received since I have been using the machine indicates that my organs are much healthier as well as my entire body and overall general health.

As I have also encountered times of depression which I even took some mild depressants for, I have found this machine has somewhat improved my mental outlook as well as making it unnecessary to take any medicine.

My mind is clearer in thinking and the room in which we keep the machine actually feels better. Leaving the machine on for a couple of hours at a time has seemed to make my house seem less "heavy"... friends have commented when they have come over about the better "energy"

Overall it seems I feel much better and have a healthier out look and a feeling of well-being as physical health directly relates to mental and emotional health.

I would recommend this machine to anyone. If you have any questions or would like further information, feel free to call.

Sincerely,

Barb

### **Issue: HIV Positive**

Brad T.

Age: 28

I started using the BELS unit at the first of May this year (1996). I have HIV, and I have had HIV for ten years plus now. A friend of mine told me about the BELS unit, it sounded interesting, so we decided to give it a try. At first I was a bit skeptical, but continued on with an open mind. We use the machine every other day; or at least we try to – doing two fifteen minute sessions at a time.

In the first week I could feel change in my energy level and also my mood seemed enhanced. Could it be the BELS, I'm asking myself? I couldn't think of anything else that could make me feel this great.

A couple of weeks go by...still doing my sessions...feeling good about life and myself...now I'm sure it's due to the BELS unit. Finally, I go to the Doctor, for a routine check up, for a person with HIV, Blood counts, Bodily functions etc. My "T" Cell count has dropped slowly in ten years, never going up, just slowly downward. But since I've started using the BELS unit my "T" Cell count has risen!! My Viral Load count is very low!! I find this incredible as well as my doctor & others!! My energy level higher, my "T" Cell & counts are higher, my wellness field improved. I feel great, and would recommend this to any one.

Good Luck, Brad

-

### **Issue: Chronic Epstein Barr Virus and Uterine Fibroid**

Lara F.

Age: 38

June 1996

My most dramatic experience with the BELS Machine was two years ago when I was suffering from Chronic Epstein Barr Virus [four years], and had to prepare for

a trip to Los Angeles. I could hardly function, very little energy, mentally foggy, and just wanted to be in bed.

I was referred to the BELS machine by a friend, so I stopped trying to pack, and went for a treatment. Two hours later, I felt surprisingly good. I flew to Los Angeles the next day and was amazed at how well I felt, and continued to feel. After a week I called my friend to tell him that all the symptoms were GONE. Three weeks later I felt a little tired and remembering being told it took 2 treatments for another Epstein Barr patient to recover I went to get another. The virus was killed and I am not suffering from its symptoms any more.

Four months ago I began a new set of treatments on the BELS for Uterine Fibroid which just didn't seem to respond to any treatment for years. This time I supplemented the treatments with hormone precursors, and oxygen therapy. At present, the tumor has been reduced to 50% of the original size and so have all the related discomforts. My health and sense of well being is at its best today.

### **Issue: Low-grade Lymphoma of the Bone Marrow**

Janet M.  
Age: 36  
July-6-96

In the past year I have had an enlargement of the lymph nodes in the neck, abdominal area, and massive spleen enlargement. I am usually tired, my energy level is low most of the time and have night sweats.

In April when I had my blood tests my WBC had dropped to 3.7 below the range it should be in. In May I met with my D.O. and decided to use his electro-magnetic (BELS) unit. I felt very well after the first session and continued to do 15 min. sessions, three times a week.

My energy level went so far up some days I couldn't even take the afternoon naps I had grown accustomed to taking daily. If I had a headache it would go away. One day I was lightheaded and after doing a 20 min. treatment, the dizziness went away. When I returned for a doctor visit on May 28 my WBC had gone up to 4.9 within the range and my lymph nodes had gone.

### **Issue: AIDS, Chronic Fatigue, Depression, Anxiety, Slight Cognitive Impairment, Peripheral Neuropathy.**

Steve S.  
Age: 34

I first tested positive for HIV antibodies almost ten years ago. My diagnosis changed to AIDS after my T-cell count fell below 200 about two years ago. Although I have never experienced any opportunistic infections, I suffer from chronic fatigue, depression, anxiety, slight cognitive impairment as well as peripheral neuropathy in both my legs and feet [side effect of DDC usage].

I first used the BELS unit approximately ten days ago while I was struggling with a case of severe bronchitis accompanied by a steady high fever of 104 degrees. After 5 days of such high grade fever, I used the unit twice for a period of ten

minutes each. The next morning, my temperature had returned to normal and the bronchitis cleared.

I have never before experienced such a rapid drop in temperature or clearing of infection. I have continued to use the unit each day, twice a day for fifteen minutes. I have experienced increased energy, improvement in my cognitive abilities as well as relief from major depression and clinical anxiety. The pain from the peripheral neuropathy has diminished, making it easier to walk and stand for longer periods of time. My most recent lab results [copies forthcoming] indicate a rise in my T-cell count from eight to thirty-seven, over a fourfold increase. I am awaiting the results from my PCR ANA [viral load] tests and will forward them as soon as they are available.

Sincerely, S.S.

-

**Issue: Biopolar**

Michael D.

About six months ago I had an opportunity to use the BELS machine for my depression. I have been diagnosed as bipolar for most of my life. I go into major depression and medication was about the only thing that could maintain me. I was very depressed for about three weeks, and my medication was not helping.

Within a few hours after my first treatment, I snapped out of my depression. I have not lapsed into a depression since that time. I have not used the machine for two months and my depression has not returned. I also have a dark field microscope. I analyzed several blood samples to see what the unit did to my blood. I noticed that the white blood cells were more active after the treatment. I did not have my video camera for my microscope at the time. I would not say it was conclusive information, but it does warrant further testing. I will be receiving the light machine again in the next several weeks to further test it.

**Issue: Heart Disease**

Ross B.

Age: 68

I received a BELS unit 6 months ago. I just had my fifth heart attack. I had a heart attack in the hospital waiting room, so they rushed me into the operating room and performed 5-bypass surgery. After the surgery I had no energy.

They ran a Cardiolite exam, which is used to measure blood flow in the body and found that there was a blockage in the heart. After I started using the machine, my energy came back.

A couple of months later they ran the same tests and found the blockage disappeared. My doctors asked me what I had done. I acted like I did not know. I didn't want to get anyone in trouble.

My daughters' Father-in-Law, called me about the machine. He had a kidney transplant. After the transplant his body was full of toxins. No matter what the doctors did, he felt worse. The doctors finally gave up hope and sent him home to die. After the first treatment, he quit using a cane. Now he is walking upright and has good color.

**Issue: Chronic Fatigue, Poor Memory, Vertigo, Muscle Weakness, Lost Sex Drive, Candidiasis, Parasites, Epstein Barr virus, Hormone Imbalance, Depression.**

Brenda Y.  
Age: 43

After the birth of my first child by caesarian section at the age of 37, I experienced a variety of physiological symptoms - I did not have prior to his birth. There was a great deal of physical and emotional stress in my life at that time. We moved five times in 6 months. I started working when he was 2 months old and continued working until the symptoms of fatigue became so extreme I could not function any more, about two and a half years after my son was born.

By then I had symptoms of chronic fatigue, poor memory, vertigo, muscle weakness, lost sex drive, candidiasis, parasites, hormone imbalance, and depression. My heart felt stressed and I had shortness of breath. I had my heart checked and it was fine. I had no energy to accomplish anything but what was required to function minimally: getup, get dressed, get my son to school, go to work, drag myself home.

I gradually worked less and less at my job until I had to give it up entirely. I had no energy to play with my son. The effort to make meals was enormous and I could not keep my house in order. I did not sleep well and never woke up rested; my doctor tested me for various viruses and found cytomegalovirus, signs of Epstein Barr virus, and some other virus whose name I don't remember. Other blood tests showed my hormone levels to be fairly normal apart from some dehydration. The doctor prescribed rest.

I tried to rest but the fatigue continued. I went to chiropractors, Homeopaths, and acupuncturists, but experienced no long-term benefit. Sometimes my symptoms were lessened a little for a short time but they always returned. I seemed to have chemical and food sensitivities. Many supplements were suggested. I took amino acids, oxygenated concentrate of mineral oxides, ultra colloidal silver, homeopathic remedies, cytozyma H-10[7] DHEA, etc.

When I started using the "BELS" machine, I had slight alleviation of my symptoms after sessions of one hour or so. After about three treatments, I noticed a marked increase in my energy level immediately after using the machine. After I had had about a dozen or so treatments on this machine I moved away from where the machine was and this made it more difficult to get treatments.

However, I noticed that after these initial sessions on the machine my energy level was much higher and I was able to sustain it at this new level. I could accomplish a great deal more in my day than previously. About four months later, I used the machine for about a week. I used it for 1 hour each morning and evening for six days. After this six days I felt awful- toxic, low in energy, headachy, and sick. I was

aware as I used the machine that it was dumping a lot of toxins into my system. I did some fairly basic detoxing at the end of this week of self treatments, such as hot apple-cider vinegar baths and a couple of colonics.

The improvement after this was dramatic!! All my symptoms seemed to have disappeared. I didn't have the fatigue any more. My memory seemed to be functioning normally. The muscle weakness disappeared. The candidiasis seemed to disappear. I had energy to do things that I had not done for years. When I was sure I could sustain this sense of well-being I returned to work, a few months later. I am still working today.

Nothing alone that I had tried in two and a half years had any lasting effect. After one week with the "BELS" machine and detoxing sessions I was over all my symptoms of chronic fatigue and other ailments and was functioning normally.

I am very grateful for the machine.

### **BELS/VIBE TESTIMONIALS**

The following testimonials were obtained from the VIBE website.

We have independently confirmed many of these.

Why are we including testimonials from a "competitor"?

1. Because the VIBE folks, who introduced a virtually identical replica of our BELS unit in mid-2002, continue to take credit for inventing technology we developed 12 years before they were in business.
2. It is a fun and creative way of dealing with the competitive comparisons between the two devices and the price disparities. The VIBE sells for over \$18,000. Our Evenstar [PMOS] Technology, which is far more advanced than the BELS unit they copied, sells for only \$7,600; is very compact; substantially better built; more reliable; more powerful and effective; and is based on over 14 years of R&D by real electronics engineers.
3. Moreover, this is a good way of alluding to the potential of our latest design by contrasting it with our older somewhat obsolete second generation technology. [Click here to view a side-by-side comparison.](#)

Vidya - Boulder, CO, Age 57, Female (*Returned her VIBE for an Evenstar-6000 [PMOS]*)

Symptoms: Enlarged Thyroid - Heavy Metal Toxicity - Low Energy  
Testimonial: Spiritual, Emotional & Physical Blessings. The detoxing I have experienced has shown up in physical, emotional and spiritual bodies. Each of my sessions I've dropped into my heart and out of my head more aware than ever, watching the energy travel through my body with sensations and emotions releasing from old childhood memories. As my heart opened more with every session so did the energy increase in my body and 3rd eye. This is truly a spiritual gift in raising consciousness as well as physically healing. I am so grateful.

Annie – Crescent City, Age 50, Female

Symptoms: DDT poisoning and parasites contracted while in South America.

Testimonial: During my sessions with the VIBE Machine I passed a parasite that I had picked up in South America. I have not had one of my episodes since taking the sessions.

Anna – Longmont, CO, Age 40, Female

Symptoms: Parkinson's Disease

Testimonials: After my first 2-minute VIBE session I noticed considerably less trembling.

Shelia – England, Age 82, Female

Symptoms: Low energy, parasites.

Testimonial: After one 2-minute VIBE session I passed a four inch parasite and have significantly more energy.

David – LeHigh, FL

Symptoms: Colon Cancer

Testimonial: My wife underwent an operation in March 2003 for colon cancer. After four sessions her energy level has picked up dramatically. She worked almost all day in the yard Sunday in scorching heat, she hasn't had the energy to work in the yard since last January.

Harold – Greeley, CO, Approx Age 55

Symptoms: High Cholesterol

Testimonial: After a workup by my physician I am happy to report that my cholesterol went from 260 down to 160. Taking VIBE sessions are the only thing I have done differently.

Lloyd - Cottage Grove, MN, Age 45, Male

Symptoms: I was diagnosed in November, 2002 with pancreatic cancer. I underwent radiation and chemotherapy until March at which time I was told the tumor had grown and that the cancer had spread to my lung, lymph nodes and liver. My condition was then rated at stage 4 (which is the most serious stage of cancer).

Testimonial: After 5 days of VIBE sessions I returned to MN and underwent a CAT scan. The tumors had ceased to grow for the first time and some had actually shrunk as much as 25%. I returned two more times to CO for 1-week sessions. I recently purchased a VIBE Machine and use it regularly.

Lloyds sister called to update VIBE Technologies 5/2/2003: Lloyd had a test where they insert a scope/camera down his throat and found that the tumor has turned from black to white (which is positive).

Minor child - Greeley, CO, Age 4, Female

Symptoms: Motor skills disorder that effects speech.

Testimonial by grandmother: After the first 30-second session this little girl, who had not been able to form a sentence told the technician "Thank you Lady". The entire family, who came with the child to the session, was astounded that she spoke so clearly and actually formed a real sentence. Upon coming for the second session, the Stepmother of the child said her speech therapist said, "I don't know what you guys are doing for her, but keep it up!"

Mary - Ft. Collins, CO, Age 60, Female

Symptoms: Chronic lower back and hip pain.

Testimonial: I had not been able to sit down comfortably for 4 months. After just four sessions I was so impressed by my improvement I bought a VIBE Machine for my own personal use!

Larry - Cheyenne, WY, Age 52, Male

Symptoms: Had large wart on finger of left hand for years, muscle fatigue, mid-back muscle spasms.

Testimonial: After one 3-minute VIBE Session, the wart was reduced by 90%. I feel this is a virus and if the machine can do this, it can certainly help my system internally. I'm bringing my friends tomorrow.

Reitman - Miami, FL, Age 50, Male

Symptoms: Prostate Cancer, iritis (burning eyes), chronic neck pain for years.

Testimonial: After five days of VIBE Sessions the burning in my eyes and neck pain disappeared. The symptoms of my prostate cancer were greatly improved. I also passed a very large parasite.

Don - Denver, CO, Age 55, Male

Symptoms: Discoloration (purple), swelling and numbness of the legs from the knees down for unknown reason.

Testimonial: After ten 2-minute sessions the swelling in my legs has decreased, they are returning to a more natural color and the numbness is significantly reduced. My physical therapist is amazed by my progress and wants me to continue both the sessions with the VIBE Machine as well as therapy.

Dan - Greeley, CO, Age 42, Male

Symptoms: Lung cancer, diagnosed with 16 months to live.

Testimonial: After 5 months of regular VIBE sessions (2-minute sessions, 4 times per week) I was tested by my oncologist and told that there was no cancer detected in my body. I'm going snowmobiling!

Dee - Denver, CO, Age 38, Female

Symptoms: High concentration of heavy metals in system.

Testimonial: After 2 months of VIBE sessions I had a blood test that showed the concentration of heavy metals in my system had decreased by 75%. I have made no other changes in my diet or taken any treatments.

Kit - Greeley, CO, Age 50, Female

Symptoms: Borderline diabetes, high cholesterol, high blood pressure, congestive heart failure, difficulty breathing.

Testimonial: I've been coming for VIBE session since September 2002. I recently had a complete medical work up. I am no longer borderline-diabetic. My cholesterol and blood pressure are normal. I am able to control the symptoms of my congestive heart failure by regular visits to the VIBE Machine.

Cheri - Greeley, CO, Age 28, Female

Symptoms: Large Goiter on Thyroid Gland

Testimonial: I went for an examination by my physician after four 1-minute sessions on the VIBE Machine. The large lump was completely undetectable.

Colleen - San Francisco, CA, Age 47, Female (Returned her VIBE for an Evenstar-6000 [PMOS])

Symptoms: Menopausal

Testimonial: After using the VIBE Machine for several 2-minute sessions over a

three-day period I noticed my hot flashes were about 50% as severe and I was less irritable.

Dave - Greeley, CO, Age 56, Male

Symptoms: Diagnosed with Leukemia, being given oxygen and fed through a tube inserted into the stomach, given 2 weeks to live.

Testimonial: After the first two weeks of sessions on the VIBE Machine I was able to get off the oxygen and eat normally, without the tube, after 2 more weeks I gained about 10 pounds, and now, after a month, I'm feeling better and am continuing to improve.

Theresa - Greeley, CO, Age 35, Female

Symptoms: Lupus

Testimonial: I had 75 % less shaking after four 1-minute sessions and can sleep through the night now.

Christine - Greeley, CO, Age 35, Female

Symptoms: Migraine Headaches and not sleeping well.

Testimonial: I was taking Midrin, about a bottle of Advil per week and Tylenol PM to help me sleep. After eight 1-minute sessions I have quit taking both medications and am sleeping normally. I feel like a new person and am so grateful to have found the VIBE Machine.

Ingrid - Boulder, CO, Age 44, Female

Symptoms: Chronic back pain due to an auto accident in 1996 and not sleeping well.

Testimonial: After my first 1-minute VIBE session I slept through the night and felt refreshed the next morning. After three 1-minute sessions, my back pain is gone for the first time in six years. My friends have commented that I'm back to my old self and seem really "up" and happy.

Donald - Boulder, CO, Age 45, Male

Symptoms: Diagnosed with Chronic Fatigue Syndrome, failing eyesight.

Testimonial: I have suffered from Chronic Fatigue for a number of years. After my first 1-minute session on the VIBE Machine I felt more energetic than I had in years. My wife noticed a huge change in my mood and willingness to socialize. I feel like this machine is miraculous. Even my eyesight seems to have balanced out and improved.

Wayne - San Francisco, CA, Age 53, Male

Symptoms: Tinnitus (ringing in the ears has become progressively worse over the last 5 years)

Testimonial: After two 2-minute sessions on the VIBE Machine I had about 50% less ringing and after four more 2-minute sessions it was up to about 90% less ringing.

Peggy - Carlton, MO, Age 50, Female

Symptoms: After a biopsy diagnosed by physician with breast cancer in July 2002.

Testimonial: I purchased my VIBE Machine in July, 2002. I had 2 lumps in my right breast, one nickel size, one dime size. I also had several smaller lumps and lesions. I began using my machine one minute per day. Within two weeks, my energy levels tripled. I went in for another biopsy at the end of July. My physician confirmed that I only had one pea-sized lump left. I used no other cancer

treatments and am glad I used this machine rather than having the radical mastectomy. In August I went in for a mammogram and they found my breasts free of cancer!

Phillip - Boulder, CO, Age 27, Male

Symptoms: Diagnosed by physician with testicular cancer. Right testicle removed because of a very large tumor. Told he had a 50%+ chance of cancer having a re-occurrence in his lymph nodes or lungs.

Testimonial: I started using the VIBE Machine for three 3-minute sessions per week. Each time I used the machine I could feel a great amount of energy in my fingertips and circulating through the rest of my body. I had the feeling that each cell of my body was getting "charged". Now 2 months after my surgery I was tested for cancer. I tested negative and my numbers are lower than expected. Everything looks clear and I owe such great results to the help of this wonderful machine. You can call me about my experience at (303) 417-1320.

Ron - Greeley, CO, Age 65, Male

Symptoms: Diabetes. Blood sugar running between 230-290. Taking 1000 units of glucophage twice a day.

Testimonial: I have not been able to maintain control despite my diet change, exercise and medicine. I stood in front of the VIBE Machine for one minute, went home and took my blood sugar reading and it was 121. Two days later I returned for another minutes session. This time when I tested my blood sugar it was 111. My blood sugar continues to come down and I am confident it is a direct result of the VIBE Machine.

Christine - Colorado, Age 53, Female

Symptoms: Diagnosed by physician to have cancer in the throat.

Testimonial: I used the VIBE Machine for one minute per day for three days. One week later my physician examined me and he said the cancer appeared to be gone and the lumps on my throat passage had scaled off. My throat and my voice have gone back to normal.

Brian - Carlton, CO, Age 38, Male

Symptoms: Constipation, arthritis, sleep difficulty and lack of energy.

Testimonial: I tried the VIBE Machine for three to four minutes and got miraculous results. I go to the bathroom regularly now, my joints quit hurting, I sleep like a baby and my energy level is up. This truly is an energy machine!

Jeff - Colorado, Age 47, Male

Symptoms: Migraine headaches.

Testimonial: I have had migraine headaches for over 7 years. I take a prescription pill when they occur which costs \$21 per pill. These headaches generally occur almost every morning. After one 1-minute VIBE session I have not had a headache since.

Gene - Greeley, CO, Age 51, Male

Symptoms: Arthritis in joints, failing eyesight.

Testimonial: I stood in front of the VIBE Machine for one minute and I had noticeable results. I could get in and out of the car with no pain and also noticed my eyesight was better. Now I can read the newspaper without my glasses.

Chuck - Lafayette, CO, Age 64, Male

Symptoms: Diabetes, kidney problems and an eye floater.

Testimonial: I was supposed to go on dialysis 2 months ago or have a kidney transplant. My creatin level as at 25 (normal is between 1 and 1.7). I had 12 operations on my feet and lost all feeling in them. I have been on insulin for 10 years and have had special shoes made for me for over 2 ears at a cost of \$1200 a pair. My left leg had had an ulcer on the bottom sole, which I treat with medicated cream every night. I had four minutes in front of the VIBE Machine. I immediately begin to get feeling in my foot again for the first time in years. The first session, the floater in my eye disappeared. That night I had a huge human waste discharge. The next day my bowels were normal. My blood sugar has averaged between 140 and 170. Her is a list of my blood sugar levels for the last five days, 103, 97, 101, 87, 81. I have great energy levels and I can walk and stand much better. I'm more alert and I really feel good. I also feel like the ulcer on my foot is getting smaller. My entire body had more strength!

Helen - Greeley, CO, Age 62, Female

Symptoms: Cancer in the brain, diagnosed as terminal.

Testimonial: I have undergone two operations for brain cancer to no avail and was taken off of all medication except for pain and anti-inflammation medicine. I was told I had 2 months to live. I have lost all short-term memory and can be very disoriented. I get terrible headaches every 2-3 hours around the clock. I sat in front of the VIBE Machine for four 1-minute sessions. I went through an entire weekend without a headache. After that, I didn't have a headache for the entire week. I had been on 4 Decradon a day (a steroid to keep the swelling down) and my physician cut them back to 3 a day. I will go in a couple of weeks for another MRI.

Michelle - Sacramento, CA, Age 53, Female

Symptoms: Diagnosed by physician with Brachiomertarsus (a congenital condition in which the inside bones of the foot are half the size they should be) and with plantar faciitis. Unable to standard walk after sitting for a few minutes without terrific heal pain, especially in the left foot.

Testimonial: I was told by my physician to stay off my tiptoes, wear shoes at all time, and to exercise my feet. This wasn't working; I had to wear the braces during the day and to bed at night. After fourteen 1-minute VIBE sessions over a period of 4 days I returned home to California. I discovered the heal pain was almost gone. I had MRI's about four months ago that showed degeneration in C3-C7. This causes pain in my shoulder; I noticed this too was gone. I can now make a fist with my left hand. a strong, tight, fist! My left pinky finger has had such bad arthritis that I haven't been able to do this prior to the VIBE sessions. I can feel all parts of that finger. Thanks to the VIBE Machine!

Sandi - Greeley, CO, Age 42, Female

Symptoms: Fibroid tumors, excessive bruising.

Testimonial: After several VIBE Machine sessions I noticed that I had less bruising then normal so it seems to have increased my blood circulation. In addition, my hairdresser was surprised to notice that I had a lot of new hair growth around my forehead; she wanted to know if I was using a special hair-growth shampoo. Most importantly, I seem to have passed five fibroid tumors. During my last visit with my OBGYN I told her about the tumors and she said it was entirely possible that they dislodged and passed.

Archie - Loveland, CO, Age 71, Male

Symptoms: Diagnosed by physician with prostate cancer.

Testimonial: I was getting up to urinate up to five times every night. After six 1-minute sessions with the VIBE Machine I am now only having to get up one or two times a night.

Beulah - Greeley, CO, Age 66, Female

Symptoms: Arthritis in thumbs for over 10 years, with constant pain.

Testimonial: After four 1-minute VIBE sessions I noticed my thumbs no longer hurt.

Marlene - Greeley, CO, Age 48, Female

Symptoms: Diagnosed with breast cancer.

Testimonial: After three weeks in front of the VIBE Machine 2 lumps have disappeared and I have noticed reduction of the baseball-size tumor in my breast.

Nick, Longmont, CO, Age 16, Male

Symptom: Extreme stuttering for several years, very self conscious when talking to people.

Testimonial: After five sessions in front of the VIBE Machine I was able to give two presentations in front of my classmates without any stuttering.

Muffin - Greeley, CO, 12 years old, Canine (Pug Breed)

Symptom: Fluid in lungs

Testimonial: After several sessions with the VIBE Machine Muffin experienced noticeably less coughing and fluid build up in her lungs.

Randy – Greeley, CO, Approx 40 years old, Male

Symptom: Diabetes

Testimonial: My feet were swollen and purple as a result of my diabetes. After several VIBE sessions, the swelling was remarkably less and the color was almost back to normal.

Cindy – Boulder, CO, Approx 43 years old, Female

Symptom: Nasal Virus

Testimonial: I picked up a painful virus from swimming which caused irritation in my nose for two years. After four or five VIBE sessions the pain and inflammation went away completely.

Claudius – Longmont, CO, approx 2 years old, Feline (cat)

Symptom: Shoulder injury

Testimonial: After being almost completely incapacitated by a shoulder injury, Claudius took several 30-second VIBE sessions. He is back to his old self and appears to be free from any pain.

Richard – Ft. Lupton, CO, approx 45 years old, Male

Symptom: Tinnitus (Ringing in the ears)

Testimonial: After two 2-minute VIBE sessions the ringing in my ears went away. I am very pleased with my results.
